Essential information, disclosures and disclaimer

A. Essential information

Investments in financial instruments and securities (e.g. equities, bonds) generally involve high risks. It is possible that investors lose some or all of their invested money. Potential investors should be aware of the fact that prices of securities could fall and rise. Thus, the income from such investments might be subject to considerable fluctuations. Investment strategies are not appropriate at all times and past results are not a guarantee of the future performance. Investors should make their own and independent decisions as to whether undertake a risky investment.

B. Disclosures according to Section 34b of the German Securities Trading Act (WpHG) and the German Regulation governing the Analysis of Financial Instruments (FinAnV).

I. Information about the company held accountable and regulatory authority:

Company responsible for the content of this document: DR. KALLIWODA | RESEARCH GmbH, Frankfurt am Main, Germany.

Regulatory authority for DR. KALLIWODA | RESEARCH GmbH is the Federal Financial Supervisory Authority (BaFin), Graurheindorfer Straße 108, 53117 Bonn, Germany and Lurgiallee 12, 60439 Frankfurt am Main, Germany.

II. Additional Information:

1. Sources of information:

Essential sources of information for the compilation of this document are publications from domestic and international information services and media (e.g. Bloomberg, dpa-AFX, Reuters, VWD, among others), financial press (e.g. Allgemeine Zeitung Frankfurter, Börsenzeitung, Financial Times Handelsblatt and others), specialized trade press, published statistics, rating agencies as well as publications by peer group companies and the company itself. This document was made available to the company before publishing to ensure the correctness of the information provided.

2. Summary of the basis of valuation principles and methods used to prepare this document:

Within the scope of the evaluation of companies, the following valuation methods are applied: Multiple-based models (Price/Earnings, Price/Cash-flow, Price/Book value, EV/Sales, EV/EBIT, EV/EBITDA), peer group comparisons, historic valuation methods, discounting models, sum-of-the-parts-approaches, substance-valuation methods and SWOT-analyses. The valuation principles and models are dependent on macroeconomic factors, such as interest rates, exchange rates, raw materials and on basic assumptions about the economy. Moreover, the value of enterprises is affected by market moods and market sentiment. The approaches are based on expectations that could change rapidly and in advance warning according to developments specific to the individual branch. The valuation results and fair values derived from the models might therefore change accordingly. The ratings are the evaluation results and refer to a fair value pricing reflecting a time-horizon of twelve-months. Nevertheless, evaluation results are subject to changing market conditions and constitute merely a snapshot. The evaluation results and fair values may be reached faster or slower than expected by the analysts. The results and fair values may be scaled upwards or downwards.

DR. KALLIWODA | RESEARCH GmbH uses the following rating model:

BUY:	Based on our analysis, we expect the stock to appreciate and produce a total return of at least 10% over the next twelve months
ACCUMULATE:	Based on our analysis, we expect the stock to appreciate and produce a total return between 5%- 10% over the next twelve months
HOLD:	Based on our analysis, we expect the stock to produce a total return between -5% and +5% over the next twelve months
REDUCE:	Based on our analysis, we expect the stock to cause a negative return between -5% and -10% over the next twelve months
SELL:	Based on our analysis, we expect the stock to cause a negative return exceeding -10% over the next twelve months
