CEWE Stiftung & Co. KGaA, market capitalization of EUR 924 million, founded in 1961, is the technology and market leader in photofinishing and also the service partner for the top brands in the European photo market. Via the brands CEWE Business Printing, Saxoprint, Laserline and viaprinto, Cewe also offers business printed matter such as flyers, posters, brochures and business cards. With Fotojoker (Poland), Japan Photo (Scandinavia), Fotolab (Czech Republic and Slovakia) and Wöltje (Germany), the company can also be found in retail stores.

Since 2016 we have been participating in various conferences and Roadshows organized by DR. KALLIWODA Research GmbH. This year we attended the 12th Dr. Kalliwoda Capital Markets Conferences Spain, which took place digitally / virtually for the first time.

Dr. Kalliwoda has a good network of investor networks in Europe that has been created over the past 22 years. As an analysis house, Kalliwoda-Research has developed sector know-how and thus a more intensive connection to qualified investors compared to pure investor relations houses. His house is also appreciated by institutional investors because he has always published his analyses continuously on Bloomberg and Reuters etc.

We have participated at Dr. Kalliwoda Capital Markets Conferences in Warsaw (Several times on site), in Madrid (on-site & digital) and Barcelona (on-site & digital).

The conferences are professionally organized by Kalliwoda Research.

We will continue to participate in the Kalliwoda Conferences and Roadshows on an ongoing basis, as this will allow us to attract new institutional investors and provide them with up-to-date facts.

Yours sincerely
CEWE Stiftung & Co. KGaA

ppa. Axel Weber
VP, Head of Investor Relations
